

SureColor SC-T5200

DATASHEET

A highly productive 36-inch printer that combines performance, quality and value to save you time and money

The SureColor SC-T5200 maximises performance in busy graphics, CAD and GIS production environments. Powerful image processing and a fast print speed meet the market's need for maximum productivity and flexibility. Epson's PrecisionCore TFP printheads do not need replacing and, together with UltraChrome XD ink, deliver the highest level of performance, value and versatile media support.

Ideal for graphics, CAD and GIS

The SureColor SC-T5200 is one of the SureColor SC-T series of high-speed, four-colour large-format printers, designed to produce a wide range of high-quality graphics, CAD and GIS applications in design, commercial print, copy shop, architecture, building, engineering, retail and education environments.

Highly productive

To maximise productivity, the SureColor SC-T5200 features 1GB of RAM for ultra-fast image processing, and an optional 320GB HDD for job caching and recall. Optional PostScript support with dual 1.6GHz CPUs enables printing of large data-rich files quickly and directly from leading design and CAD programs. And the SureColor SC-T5200 is fast — outputting an A1 print takes just 28 seconds.

High quality output

The combination of Epson's PrecisionCore TFP printheads and UltraChrome XD pigment ink delivers industry-leading output quality and precise, repeatable performance. UltraChrome XD pigment ink is smudge and water resistant and delivers deep blacks and crisp, dense lines — ideal for technical graphics — and the vibrant colours necessary for high-quality prints and posters, on coated and non-coated media — including board up to 1.5mm thick.

Compact, quiet and easy to use

With its sleek styling, compact footprint, low noise levels and front operation, the SureColor SC-T5200 is designed to fit easily into an office environment.
